

Fashion Hub Market 2019: *Carmelina Raco* presents her Spring Summer 2020 Collection

As announced by the National Chamber of Italian Fashion, ***Carmelina Raco*** will be among the brands that will take part from 17th to 23rd September 2019 in the ninth edition of Fashion Hub Market, an event created to present the most interesting emerging brands on the international scene, which will take place at the Spazio Cavallerizze of the National Museum of Science and Technology Leonardo da Vinci (Via Olona, 6bis).

This season the focus will be particularly on the most promising designers who represent the excellence of Italian craftsmanship.

"The Italian Fashion Chamber wants to underline how the new generation of Italian designers is supporting and preserving these techniques, which in our historical moment are often forgotten".

Carmelina Raco, who, as in the tradition of Made in Italy, realizes her collections exclusively by hand by using the methods of true tailoring, presents a Spring-Summer 2020 collection with innovative cuts, breaking the rules of men's made-to-measure making, while maintaining the aesthetic rigor, through a double construction. The theme of the collection is represented by a mix of overlapping structures that merge into a unique and unrepeatable result in the made-to-measure panorama.

The dresses feature skirts with pleats and ankle-length skirts with deep slits, so as to give comfort and movement, at the same time. The special making on the front of the jackets creates a game of overlaps, two distinct identities that give life to a unicum in the same structure, while in the back it's easy to spot the structure of a very elegant tight. This is the leitmotiv of this capsule collection: the eclectic dynamism of a suit that takes on a new relevance.

The structure of each dress puts together multiple layers and cuts. Thus we find in the same garment both the double-breasted and one-breasted buttoning, through the creation of continuous splits in which the final image is of absolute balance and perfection, tending to infinity.

The challenge is to overturn the canons of creation, characterizing the dress of a value which shows the construction inherited from the rules of men's tailoring, the school where designer ***Carmelina Raco*** comes from.

Who is ***Carmelina Raco***:

Carmelina Raco is a sartorial brand, founded in one of the historic districts of Milan, on the Naviglio Grande. The Atelier creates bespoke tailored suits, following with the construction and making of men's made to measure suits. The designer ***Carmelina Raco***, in her creative freedom, deconstructs the male jacket, freeing it from the classical rules and elevating it to a universal work of art.
